Risk factors

An investment in corporate bonds always involves a certain degree of risk. A number of factors affect and may come to affect the result and financial position of AB Sagax (publ) ("Sagax" or the "Company") and the value of the EUR senior unsecured floating rate notes (the "Notes"). Below is a description of risk factors, which Sagax considers to be the most relevant to an assessment by a prospective investor of whether to invest in the Notes. However, potential investors should note that the below risk factors are neither exhaustive nor ranked in order of importance. The intention is to describe risks that are linked to Sagax's operations and its ability to fulfill its obligations in accordance with the terms and conditions of the Notes dated 15 June 2016 (the "Terms and Conditions") and to describe the risks related to the investments in the Notes.

Before making a decision to invest in the Notes, any potential investor should carefully consider the risk factors outlined below, as well as any other information provided (such as the final Terms and Conditions and any public available financial and other information of Sagax). In addition, an investor must, alone or together with its financial and any other adviser it deems appropriate, engage in an analysis of the global market conditions and general information about the relevant real property markets and real property companies from its own perspective. An investor should have adequate knowledge to evaluate the risk factors as well as sufficient financial strength to assume these risks.

The risk factors below are not exhaustive and additional risk factors presently not known to the Company may affect the Company's future ability to pay interest, principal or make any other payments in respect of the Notes.

RISKS RELATED TO SAGAX

Rental income and development

Sagax's revenue is affected by the long-term demand for warehouses and industrial premises, the properties' tenancy ratio and the rent levels. The rent level risk is related to the development of current market rents. The average term of Sagax's lease agreements is long, but, Sagax could be adversely affected by a long-term negative development of the relevant market rents.

Credit risk

Sagax's main credit risk is the tenants being unable to fulfill their obligation to pay rent under the lease agreements, which could adversely affect Sagax's liquidity and result.

Operational and maintenance costs

Tenants leasing warehouses and light industrial premises usually have a relatively extensive liability for operations and maintenance. The most important operational costs are electricity and heating costs of the properties. The tenants are charged directly or on-charged by Sagax for the majority of such costs. In the event of vacancies, Sagax's result is not only affected by the loss of lease revenue but also by costs for, for example, electricity and heating, which would otherwise be paid for by tenants.

Risks related to transactions

Acquisitions of additional properties are a part of Sagax's ordinary business and such acquisitions inherently involve a degree of risk and uncertainty. A property acquisition

entails risks such as future loss of tenants, environmental conditions and technical deficiencies, such as design defects, other hidden deficiencies, damages and pollution. When acquiring property companies, risks for taxes and legal disputes are added. Such risks can, if realised, adversely affect Sagax's operations, result and financial position.

Fluctuations in property value

Sagax is exposed to changes of the Group's property portfolio's market value. Sagax reports the Group's properties at their fair value pursuant to the Swedish accounting standard IAS 40 Förvaltningsfastigheter, which means that the consolidated booked value of the properties, corresponds to their aggregated estimated market value. This means that a decrease in the market value of the properties will adversely affect Sagax's balance sheet and income statements. In order to prepare the accounts pursuant to generally accepted accounting principles in Sweden, the management of Sagax must make assessments and assumptions that affect the value of the assets and liabilities and income and costs, as well as other information in the financial reports. The actual outcome can deviate from such assessments and assumptions. The valuation of investment properties is heavily affected by assessments and assumptions made by the management.

Holding company

The Company is a holding company and the Group's operations are mainly run through its subsidiaries. The Company is hence dependent on its subsidiaries to fulfill its

obligations under the Notes. The Group intends to provide the Company with liquidity by way of intra-group loans, dividends or other transfers of value in order for the Company to fulfill its obligations under the Notes. However, if the subsidiaries do not provide liquidity, or due to other circumstances, conditions, laws or regulations are prevented from providing liquidity to the Company, there is a risk that the Company will not fulfill its obligations under the Notes.

Financing

Sagax is financed through equity and interest-bearing debt. Most of the interest-bearing debt is borrowed by the Company's property owning subsidiaries, which means that the financial risks in Sagax are primarily attributable to its subsidiaries. The Group's long-term financing consists of bilateral and syndicated credit facilities and listed bond loans. The listed bond loans amount to SEK 2,581,000,000 as per 22 June 2016. Swedish and foreign commercial banks are the main counterparties in the first mentioned credit facilities. In some cases there are certain obligations under the credit facilities on maintaining, for example, certain interest cover ratios and certain loan to value ratios. This means that the lenders could be entitled to demand repayment in advance if the relevant Group Companies do not fulfill such obligations. If such demand is made it could adversely affect Sagax's financial position.

In addition to the Group's long-term debt Sagax has two commercial paper programmes in the aggregate amount of SEK 1,500,000,000 and EUR 200,000,000 respectively. SEK 798,000,000 was issued as per 31 March 2016. Sagax has back-up facilities in the aggregate amount of SEK 798,000,000 to bridge repayments under the commercial paper program if necessary.

Sagax and its subsidiaries are dependent on their ability to refinance existing financings as these fall due and to obtain additional financing at market terms in connection with for example property acquisitions. In case Sagax and its subsidiaries are unable to refinance existing financings or obtain additional financing at market terms, as a result of a deficiency in the capital market or for any other reason, this could adversely affect Sagax's operations, result and financial position.

Liquidity risk

Liquidity risk is defined as the risk of not having access to sufficient liquidity or credit commitments to cover its payment obligations, including payments of interest. A lack of liquidity to cover payments due could adversely affect Sagax's business and financial position. Sagax's working capital was SEK 46,000,000 as of March 31, 2016. Sagax's available capital was SEK 1,341,000,000 of which SEK 287,000,000 came from bank loans and SEK 1,054,000,000 came from unutilised credit commitments. The utilisation of these credit commitments are not conditioned on Sagax providing any additional security.

Interest rate risk

Sagax's main current cost item is interest costs. Interest rate risk is defined as the risk of an effect on the financing cost of Sagax due to changes in the market interest

rate. The interest rate risk is related to the development of current interest rates. As of March 31, 2016, the interest-bearing debt totaled SEK 10,682,000,000. A negative development, from Sagax's perspective, of interest rates would adversely affect Sagax's result and financial position.

Financial derivatives' change of value

Sagax uses financial instruments such as interest rate derivatives, mostly nominal interest rate swaps, to manage interest rate risks related to its high share of loans with short-term interest periods. The interest rate derivatives are currently reported at their fair value in the balance sheet. Change of value is reported in Sagax's income statement. In line with changes in the market interest rates, either a surplus value or a negative value will arise in such interest rate derivatives. Sagax purpose with using the interest rate derivatives is to increase the predictability of its profit from property management and to decrease its financial risk. Decreasing market interest rates will result in decreased market value of Sagax's interest rate derivatives, which could adversely affect the result and financial position of Sagax. The graph below shows the revaluation in the event of changes in swap curves as per 31 December 2015.

Currency risk

As of March 31, 2016 the Group owned 85 properties in Finland, five properties in Germany and four properties in France, which results in an exposure to the euro currency. The properties are financed by equity and/or bank loans. The bank loans for the Finnish and German properties are denominated in euro. The interest-bearing debt in euro was equal to SEK 4,039,000,000 as of March 31, 2016. At the same time, the market value of the properties in Finland, Germany and France was equal to SEK 6,713,300. The net exposure as of March 31, 2016, assets minus debts in euro, totaled SEK 2,244,000,000. Sagax's accounting pursuant to IAS 21 results in the majority of exchange rate effects being reported directly against the equity. Only a minor part of the exchange rate effects is reported in the income statement.

The Group also owns two properties in Denmark. Both properties in Denmark were mortgaged as of March 31, 2016 in DKK. Exchange rate fluctuations may adversely affect Sagax's result and financial position.

Organisational risks

Sagax has a relatively small organisation, which leads to a dependence on key persons. Sagax's future development is to a large extent dependent on the experience, knowledge and commitment of management and other key personnel. Sagax operations and results could be adversely affected should one or several of such key persons terminate their employment.

Operational risks

Operational risk describes the risk of incurring losses in the continued operations due to insufficient routines. This among other things could be the lack of internal control, appropriate administrative systems and competence development. If the routines prove to be inadequate there is a risk that Sagax incurs losses which could have an effect on Sagax's operations, earnings and financial position.

Environmental risk

Pursuant to current environmental law the liability for pollution and other environmental damages is, as a general rule, on the current and previous operator of a property. Sagax does not run any business that requires permission under the Swedish Environmental Code (Miljöbalken (1998:808)). However, there might be tenants, who are deemed to be operators under the Swedish Environmental Code, whose operations require permission under the Swedish Environmental Code. If no operator is able to carry out or pay for the after-treatment of a property, the person who acquired the property after 1 January 2000 and at the time of the acquisition was aware of the pollution, or ought to have detected it in connection with the acquisition, is liable for the after-treatment. This means that claims for decontamination or after-treatment of any actual or suspected pollution in land, water area or groundwater in certain circumstances may be directed against members of the Group in order to ensure that the property is in such condition as is required by the Swedish Environmental Code. Such claim could adversely affect Sagax's result and financial position.

Taxes and changes in legislation

Changes in legislation related to corporate income tax, property tax and other taxes, for example changes in the possibility for depreciation for tax purposes and tax deductions on interest costs could adversely affect Sagax's result. Sagax has accumulated tax losses. The Group's loss carry-forward as of December 31, 2015 totals to a net amount of SEK 1,516,000,000. Changes to the ownership of the Company resulting in a change of control of the Company can lead to limitations (in whole or in part) of the possibility to use such carry-forwards. Changes in legislation or case law can affect the possibility to use such carry-forwards. Sagax pays property tax for all properties except five, and has in most lease agreements agreed upon this cost being covered by the tenants. Further, a change in legislation or case law, for example within the lease, acquisition or environmental legislation, could adversely affect Sagax's result and financial position.

Other disputes

Sagax could become involved in future disputes. The results of any pending or future investigation, proceeding, litigation or arbitration brought by private parties, regulatory authorities or governments could affect Sagax

operations. In addition, if an unfavourable decision were to be given against Sagax, significant fines, damages and/or negative publicity could adversely affect Sagax's result and financial position.

Geographical risk

The supply and demand for properties and the return on property investments varies between different geographical markets and may develop differently within different geographical markets. Sagax has a diversified property portfolio, with its properties located in different geographical markets. However, the demand for premises to lease could decline in one or all of such markets, which could adversely affect Sagax's operations, result and financial position.

Competition

Sagax operates in a competitive sector. Sagax's future competitive potential is dependent on, amongst other things, Sagax's ability to predict future changes and its ability to quickly respond to present and future market needs. Sagax competes against a number of strong companies, which could gain market shares at the expense of Sagax. Consequently, it may become necessary for Sagax to make costly investments, restructurings or price reductions in order to adapt to a new competitive situation, which could adversely affect Sagax's operations, result and financial position.

RISKS RELATED TO THE NOTES

Bond loans can contain elements resulting in particular risks for potential investors. The interest rate for the Notes is relatively high, which should compensate the higher risk of a Holder, compared to an investment in, for example, government bonds having a lower interest rate.

Credit risk

If Sagax's financial position deteriorates it is likely that the credit risk associated with the Notes will increase since the risk that Sagax cannot fulfill its obligations under the Notes increases. Sagax's financial position is affected by numerous risk factors, some of which have been outlined above. An increased credit risk could result in the market pricing the Notes with a higher risk premium, which would adversely affect the value of the Notes. Another aspect of the credit risk is that a deteriorated financial position could result in a lower credit-worthiness, which could affect Sagax's ability of refinancing when the Notes mature.

Interest rate risk

The value of the Notes is dependent on several factors, one of the most significant over time being the level of the general market interest rates. The Notes have a floating rate structure based on 6 months EURIBOR and the interest rate of the Notes will be determined two business days prior to the first day of each Interest Period. Hence, the interest rate is to a certain extent adjusted for changes in the level of the general interest rate. An increase of the general interest rate level could adversely affect the value of the Notes. The general interest rate level is to a high degree affected by the European and the international financial development and is outside the Company's control.

Holders' meeting

The Terms and Conditions include certain provisions regarding Holders' meetings, which may be held in order to resolve on matters relating to the Holders' interests. Such provisions allow for designated majorities to bind all Holders, including Holders who have not participated in or voted at the actual meeting or who have voted differently than the required majority, to decisions that have been taken at a duly convened and conducted Holders' meeting. Consequently, there is a risk that the actions of the majority in such matters could impact a Holder's right in a manner that would be undesirable for some of the Holders.

 Holders' representation

In accordance with the Terms and Conditions, the Agent represents all Holders in all matters relating to the Notes. However, in certain situations, Holders could bring their own action against Sagax, which could negatively impact an acceleration of the Notes or other action against Sagax. To enable the Agent to represent the Holders in court, the Holders may have to submit a written power of attorney for legal proceedings. The failure of all Holders to submit such a power of attorney could negatively impact the enforcement of the Notes and the possibility for the Holders to exercise their rights under the Notes. Under the Terms and Conditions the Agent has the right in some cases to make decisions and take measures that bind all Holders. Consequently, the actions of the Agent in such matters could impact a Holder's rights under the Terms and Conditions in a manner that would be undesirable for some of the Holders.

 Liquidity risk

Sagax will apply for registration of the Notes on the List of Corporate Bonds of the Regulated Market of Nasdaq Stockholm after the prospectus for the Notes has been approved by the Swedish Financial Supervisory Authority (Finansinspektionen). However, there is a risk that the Notes will not be admitted to trading. Even if the Notes are admitted to trading, there is not always active trading in the bonds. This can result in Holders not being able to sell their Notes when they wish to or at a yield comparable to similar investments having an existing and functioning secondary market. A lack of liquidity in the market could have an adverse effect on the market value of the Notes.

 Currency risk

The Notes will be denominated and payable in EUR. If investors in the Notes measure their investment returns by reference to a currency other than EUR, an investment in the Notes will entail foreign exchange-related risks due to, among other factors, possible significant changes in the value of the EUR relative to the currency by reference to which investors measure the return on their investments because of economic, political and other factors over which Sagax has no control. There is a risk that depreciation of the EUR against the currency by reference to which investors measure the return on their investments could cause a decrease in the effective yield of the Notes below their stated coupon rates and could result in a loss to investors when the return on the Notes is translated into the currency by reference to which the investors measure the return

on their investments. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Company to make payments in respect of the Notes. As a result, there is a risk that investors may receive less interest or principal than expected, or no interest or principal.

 Clearing and settlement in Euroclear Sweden's account-based system

The Notes will be affiliated to and will continue to be affiliated to Euroclear Sweden's account-based system. Consequently, no physical notes have been or will be issued. Clearing and settlement relating to the Notes, as well as payment of interest and redemption of principal amounts, will be performed within the account-based system. The Holders are therefore dependent on the functionality of the account-based system.

 Preferential right

Sagax intends to find financing which is, in Sagax's opinion, suitable and beneficial for the Group. This means that bank loans could be raised and securities issued which are secured by mortgages over properties, normally constituting a claim on Sagax with preferential rights. The Notes represent an unsecured obligation of Sagax. This means that in the event of Sagax's liquidation, company reorganisation or bankruptcy, Holders will receive payment only after any creditor with a claim with preferential right, normally with security over certain assets, have been paid in full. Every potential investor should be aware that by purchasing Notes, it risks losing the entire or parts of its investment in the event of Sagax's liquidation, company reorganisation or bankruptcy.

There is no restriction under the Terms and Conditions for the subsidiaries of Sagax to incur debt. If the subsidiaries incur debt, the right to payment under the Notes will be structurally subordinated to the right of payment relating to debt incurred by subsidiaries of Sagax.

 Changes in legislation

The Terms and Conditions are based on Swedish legislation applicable at the date hereof. The impact of potential future change in legislation may result in risks which are not possible to foresee. Changes in legislation, case law or administrative practice may have a negative effect on the value of the Notes.

 Prepayment risk

Sagax has a right under the Terms and Conditions to redeem all outstanding Notes in advance. If so, a certain additional sum shall be paid. There is a risk that the market value of the Notes is higher than the price that Sagax may be entitled to redeem the Notes for. However, an early redemption can never be made at an amount lower than a nominal amount of 100 per cent.

Business description of Sagax

BUSINESS CONCEPT

AB Sagax is a property company whose business concept is to invest in commercial properties, primarily in the warehouse and light industry segment.

COMPANY GOALS

The overriding goal is the long-term generation of the maximum risk-adjusted return to the company's owners. To reach this goal, Sagax has set the following business targets:

- Operations must generate a long-term sustainable return and strengthen cash flow.
- The company intends to continue to grow through property acquisitions after taking into account the risk-adjusted return.
- Measured in real terms, the company is to create cash-flow growth from the existing property portfolio.

STRATEGIES

Management strategy

Sagax pursues efficiency and a long-term approach in its management strategy. The management strategy includes actively pursuing long leases. This applies equally to new leases and to the management of existing leases. The focus is to abstain from attempting to maximize rent levels in any given moment in favor of reaching lease agreements of a longer duration with solvent tenants.

The average lease term for the portfolio as a whole was 7.6 years at March 31, 2016, compared to 8.1 years at March 31, 2015.

Investment strategy

Sagax invests primarily in warehouse and industrial properties. The objective is to carry out additional acquisitions

and complementary investments in existing properties. Property acquisitions and investments in the existing portfolio aim to increase cash flow and diversify rental revenue and thereby to reduce the operational and financial risk.

Funding strategy

The funding structure of Sagax has a focus on operating cash flow and the interest coverage ratio. This is expected to create prerequisites for expansion and an attractive return on shareholders' capital.

Sagax has a conservative approach to risk. Accordingly, Sagax pursues long-term fixed interest and maturity structures to secure operating cash flow. The average fixed-interest period of the Group was 2.9 years at March 31, 2016 compared to 2.8 years at March 31, 2015. The long fixed-interest period reduces interest sensitivity but normally results in a higher average interest rate than a shorter fixed-interest period. The average maturity structure was 3.9 years at March 31, 2016 compared to 3.0 years at March 31, 2015.

Dividend strategy

Sagax's dividend strategy is to distribute about one third of the annual profit from property management in total dividend payments on common and preference shares. In addition, the Board can propose the distribution of non-recurring profits to shareholders.

FINANCIAL TARGETS

- Return on equity, measured over a five-year period, must amount to not less than 15% per year.
- Profit from property management per common share must increase by a minimum of 15% per year.
- The long-term target for the interest-coverage ratio is a minimum of 150%.
- The long-term target for the debt ratio is less than 70%.

PROPERTY PORTFOLIO

At March 31, 2016, the property portfolio comprised of 225 properties with a lettable area of 1,874,000 square meters. The average remaining lease term was 7.6 years compared to 8.1 years the same period the previous year. or inability is continuing. However, if the failure to take certain actions is caused by the non-payment by the Issuer of any fee or indemnity due to the Agent under the Terms and Conditions or the Agency Agreement or by any reason described in Condition 13.1.3, such failure must continue for at least forty (40) Business Days after the Agent has notified the Holders that it will cease to perform its obligations by reason of the non-payment of any fee or indemnity due to the Agent under the Terms and Conditions or the Agency Agreement or by any reason described in Condition 13.1.3 before a Holder may take any action referred to in Condition 13.1.1.

13.1.3 If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Holders, or taking any action at its own initiative, will not be covered by the Issuer, the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate Security has been provided therefore) as it may reasonably require.

13.2 Holders' meeting and procedure in writing

(a) The Agent is entitled, and shall following a demand in writing from a Holder (or Holders) representing at least ten (10) per cent. of the Adjusted Total Nominal Amount (such demand may only be validly made by a person who is a Holder on the Business Day immediately following the day on which the demand is received by the Agent and shall, if made by several Holders, be made by them jointly), on behalf of the Holders, call for a Holders' meeting or demand for a procedure in writing among the Holders. Holders representing at least ten (10) per cent of the Total Nominal Amount may demand from the Agent that such call is made.

(b) A demand by a Holder (or Holders) in accordance with Condition 13.2 (a) shall be made in writing to the Agent including (i) information regarding the issues that shall be discussed and (ii) documentation which indicates the holding of the relevant Holders. If the Agent establishes that such demand has been received in due order the Agent shall, within twenty (20) Banking Days from receipt of such demand, call to a meeting or demand for a procedure in writing. Such obligation does not exist if, according to the Agent, (i) the proposal must be approved by the Company and the Company informs the Agent that it will not give such approval, (ii) the proposal is not in accordance with applicable laws, rules or regulations or cannot be implemented due to technical restrictions at the CSD or Nasdaq Stockholm or (iii) it is clearly unlikely that the meeting will consent to the proposal in view of previous meetings or procedures in writing.

(c) Notice shall be made to the Holders and the Agent or, as the case may be, the Company in accordance with Condition 17 (Notices) below and shall be made not later than ten (10)

Banking Days and not earlier than thirty (30) Banking Days prior to the meeting or the last day for replies. The notice shall include (i) time for the meeting or the last day for replies, (ii) place for the meeting or address for replies, (iii) agenda for the meeting, (iv) information regarding which day a Holder shall be registered as owner or underlying holder, in case of nominee registration and such possibility is provided by the CSD to be entitled to vote, in the register of the CSD and (v) what is otherwise required by a Holder in order to attend the meeting. The Company or, if the Agent is calling, the Agent shall determine the contents in the notice and provide, in writing or electronically, a proxy form for the Holders to participate at the meeting by proxy or, in case of a procedure in writing, a decision form with the relevant alternatives for resolution.

- (d) A resolution is passed through voting at a meeting (or, in case of a procedure in writing, through calculation), at which each Holder included in the definition of Adjusted Total Nominal Amount is entitled to vote. Each Note shall entitle its Holder to one vote per EUR 100,000 of the Nominal Amount held by such Holder. A Holder that holds more than one Note must vote in the same manner for all Notes held. However, a representative who represents different Holders may vote differently for different Holders and an authorised nominee in accordance with the Financial Instruments Accounts Act may vote differently for different underlying accountholders. The resolution of the Holders shall, subject to the requirements for Qualified Majority set out in Condition 13.2 (e) below, be the opinion which represents the majority of the Adjusted Total Nominal Amount for the Notes.
- (e) In respect of the below issues the following qualified majority is required among the votes casted and the answers received in order to deem a resolution passed ("Qualified Majority"):
- (i) two thirds when (1) one of the situations from a special undertaking in accordance with Condition 11 (Special undertakings) is waived, (2) change of Agent upon demand by the Company or the Holders, (3) amendment of a condition in these Terms and Conditions, subject to (ii) below; or
- (ii) three quarters when (1) principal amount, interest rate or interest amount which shall be paid by the Company is reduced, (2) amendment of any redemption day for principal or interest amount and (3) amendment of the conditions in this Condition 13.2 (e). If the number of votes are equal, the opinion which is most beneficial for the Company, according to the chairman of the meeting (or, in case of a procedure in writing, the Agent) will prevail.
- (f) Quorum exists only if Holders representing at least one fifth of the Adjusted Total Nominal

- Amount attend the meeting in due order (or, in case of a procedure in writing, provide answers). If quorum is not achieved within fifteen (15) minutes from the fixed time (or, in case of a procedure in writing, through received answers at the end of the time for replies), the meeting shall be adjourned (or, in case of a procedure in writing, the time for replies shall be extended) to the day which falls on the fifth Banking Day thereafter. Notice containing information regarding time and place for a continued meeting (or, in case of a procedure in writing, information regarding extended time for replies) shall promptly be provided to the Holders in accordance with Condition 17 (Notices). At a continued meeting (or, in case of a procedure in writing, at a new calculation) a resolution can be passed through a ordinary resolution (or, if required in accordance with (c) above, through Qualified Majority) by Holders entitled to vote irrespective of the share of Notes represented.
- (g) At the meeting the Company, the Holders and the Agent may attend along with its representatives, counsels and assistants. The meeting can decide that further individuals may attend. The meeting is opened by a present person appointed by the Company (or, if such person does not exist, a present person appointed by the Agent) and the meeting is lead by that person until present and represented Holders have appointed a chairman for the meeting. The chairman shall arrange for minutes to be kept at the meeting in which Holders entitled to vote shall be listed, which other persons have been attending, what has been discussed, how the voting has turned out and which resolutions that has been passed. The minutes shall be signed by the chairman and by at least one person appointed to verify the minutes. In case of a procedure in writing, the Agent shall provide for the calculation and draw up minutes in respect of the calculation. The Agent may request for complements and clarifications but is not obliged to do so and may disregard from unclear or illegible answers. The Agent shall disregard from answers which do not follow listed alternatives or answers where voting right does not appear in the material provided by the Holder or CSD. The Company may attend the calculation. The minutes shall be completed promptly and be held available for the Holders at the Company and the Agent.
- (h) If the Company and the Agent deem it appropriate, a meeting may be combined with a possibility for Holders to provide answers in accordance with a written resolution form as an alternative to being present or being represented at a meeting.
- (i) A resolution that has been passed at a duly called and held meeting or a procedure in writing is binding on all Holders irrespective of them being present or being represented at the meeting or if they have participated in the procedure in writing and irrespective of how and if the they have voted.
- (j) The Company shall bear all cost for the Company and the Agent in connection with a meeting or a procedure in writing irrespective of who has initiated the meeting or the procedure.
- 13.3 Replacement of Agent**
- 13.3.1** Subject to Condition 13.3.6, the Agent may resign by giving notice to the Company and the Holders, in which case the Holders shall appoint a successor Agent at a meeting convened by the retiring Agent or by way of written procedure initiated by the retiring Agent.
- 13.3.2** Subject to Condition 13.3.6, if the Agent is subject to insolvency proceedings, the Agent shall be deemed to resign as Agent and the Company shall within ten (10) Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- 13.3.3** A Holder (or Holders) representing at least ten (10) per cent. of the Adjusted Total Nominal Amount may, by notice to the Company (such notice may only be validly given by a person who is a Holder on the Business Day immediately following the day on which the notice is received by the Issuer and shall, if given by several Holders, be given by them jointly), require that a meeting of Holders is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a meeting of Holders convened by it or by way of written procedure initiated by it, propose to the Holders that the Agent be dismissed and a new Agent appointed.
- 13.3.4** If the Holders have not appointed a successor Agent within ninety (90) days after (i) the earlier of the notice of resignation was given or the resignation otherwise took place or (ii) the Agent was dismissed through a decision by the Holders, the Company shall appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- 13.3.5** The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under these Terms and Conditions.
- 13.3.6** Agent's resignation or dismissal shall only take effect upon the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent.
- 13.3.7** Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Terms and Conditions but shall remain entitled to the benefit of these Terms and Conditions and remain liable under these Terms and Conditions in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Company and each of the Holders shall have the same rights and obligations amongst themselves under these Terms and Conditions as they would have had if such successor had been the original Agent.
- 13.3.8** In the event that there is a change of the Agent in accordance with this Condition 13.3 (Replacement

of Agent), the Company shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under these Terms and Conditions. Unless the Company and the new Agent agrees otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

13.4 Remuneration for the Agent

The Agent is entitled to receive remuneration from the Company for acting as Agent in accordance with these Terms and Conditions. If the Agent, based on good reasons, believes that the Company is or will become insolvent, the Agent is entitled to reserve reasonable remuneration from Holders for its continued work in accordance with these Terms and Conditions, save that the Agent shall make the arrangements stated in Condition 12.6 without having received remuneration or being indemnified by the Holders. If the Agent notifies the Holders that it will not take further actions each Holder may independently represent its holding of Notes against the Company without having to observe the provisions in Conditions 12 (Acceleration of the Notes) and 13.1 (General).

13.5 Funds received by the Agent

Funds that the Agent receives (directly or indirectly) in connection with the acceleration of the Notes constitute escrow funds (redovisningsmedel) and must be held on a separate interest-bearing account on behalf of the Holders and the other interested parties. The Agent shall arrange for payments of such funds to the relevant person(s) as soon as reasonably practicable after receipt thereof.

14 AMENDMENTS OF THE TERMS AND CONDITIONS

14.1 The Agent may, on account of the Holders, agree with the Company to amend these Terms and Conditions if such amendment does not limit the obligation of the Company to pay amounts of principal or interest or in any other way, in the Agents discretion, may adversely affect the interests of the Holders, materially or that the amendment is solely made in purpose to rectify obvious errors and mistakes in these Terms and Conditions. Subject to requisite decision of the Holders in accordance with Condition 13 (The Agent's right to represent the Holders, Holders' meeting etc.), the Agent may also agree with the Company regarding other amendments.

14.2 Amendments of these Terms and Conditions shall be notified without delay by the Company in accordance with Condition 17 (Notices), setting out the date from which the amendments will be effective.

15 TIME LIMITATIONS

15.1 The right to receive payment of the Nominal Amount shall be time limited and become void ten (10) years from the relevant Redemption Date. The

right to receive payment of interest shall be time limited and become void three (3) years from the relevant due date for payment. The Company is entitled to any funds set aside for payments in respect of which the Holders right to receive payment has been time limited and has become void.

15.2 If such term of limitation periods are duly interrupted, in accordance with the Swedish Act on Statutory Limitations (Preskriptionslag (1981:130)), a new limitation period of ten (10) years with respect to the Nominal Amount, and of three (3) years with respect to interest payments will commence, in both cases calculated from the date of interruption of the limitation period as such date is determined pursuant with the provisions of the Swedish Act on Statutory Limitations.

16 ALLOCATION OF PAYMENTS

16.1 Payments prior to an acceleration

If both the Nominal Amount and interest are due for payment and if the available funds are insufficient to discharge all the amounts due and payable, the available funds shall first be applied towards payment of interest and secondly towards payment of the Nominal Amount.

16.2 Payments after an acceleration

16.2.1 All payments by the Issuer relating to the Notes following an acceleration of the Notes in accordance with Condition 12 (Acceleration of the Notes) shall be distributed in the following order of priority, in accordance with the instructions of the Agent:

- (a) first, in or towards payment pro rata of (i) all unpaid fees, costs, expenses and indemnities payable by the Issuer to the Agent (other than any indemnity given for liability against the Holders), (ii) other costs, expenses and indemnities relating to the acceleration of the Notes or the protection of the Holders' rights as may have been incurred by the Agent and (iii) any costs and expenses incurred by the Agent in relation to a Holders' Meeting that have not been reimbursed by the Issuer in accordance with paragraph (j) of Condition 13.2 (Holders' meeting and procedure in writing);
- (b) secondly, in or towards payment pro rata of accrued but unpaid Interest under the Notes (Interest due on an earlier Interest Payment Date to be paid before any Interest due on a later Interest Payment Date);
- (c) thirdly, in or towards payment pro rata of any unpaid principal under the Notes; and
- (d) fourthly, in or towards payment pro rata of any other costs or outstanding amounts unpaid under the Terms and Conditions.

16.1.2 If the Issuer or the Agent shall make any payment under this Condition 16.2 (Payments after an acceleration), the Issuer or the Agent, as applicable, shall notify the Holders of any such payment at least fifteen (15) Business Days before the payment is made. Such notice shall specify the Record Date, the payment date and the amount to be paid. Not-

withstanding the foregoing, for any Interest due but unpaid the Record Date specified in Condition 7.2 (Payments of principal and interest) shall apply.

17 NOTICES

17.1 Notices from the Company or the Agent shall be given to the Holders at their addresses as registered with the CSD. In addition to this, notice may be given by advertisement in a nationwide Swedish newspaper (any of Dagens Industri, Dagens Nyheter or Svenska Dagbladet) by press release, or at the Company's or Agent's website with the notice in its entirety or with reference to where the notice in its entirety is available.

17.2 Notices from the Holders to the Company shall be given to the Company with a copy to the Agent at their registered addresses.

18 LIMITATION OF LIABILITY ETC.

18.1 The Agent, the Issuing Agent and the CSD shall have no liability for damage caused by Swedish or foreign enactment, action taken by a Swedish or foreign authority, war, strike, blockade, boycott, lockout or other similar circumstance. This limitation of liability in the case of a strike, blockade, boycott or lockout also applies if the Agent, the Issuing Agent or the CSD would itself initiate or become subject to such conflict.

18.2 **The Agent shall have no liability for damage** caused by the Agent acting as a representative for the Holders, aligned with the decisions made in ac-

cordance with Condition 13 (The Agent's right to represent the Holders, Holders' meeting etc.). This shall also apply to the Agent or an affiliate of the Agent acting in another manner in relation to the Company within the scope of other dealings with the Company.

18.3 Damage caused in any other event will not be indemnified by the Agent, the Issuing Agent or the CSD unless the damage is caused by negligence. In no event will indemnification be made for indirect damage.

18.4 Should the Agent, the Issuing Agent or the CSD be prevented from performing their obligations due to the circumstances mentioned in Condition 18.1 above, performance may be postponed until fulfilment is no longer prevented by such events.

18.5 The provisions in this Condition 18 (Limitation of liability etc.) apply unless they are inconsistent with the provisions of the Financial Instruments Accounts Act which provisions shall take precedence.

19 GOVERNING LAW AND JURISDICTION

19.1 These Terms and Conditions shall be governed by and construed in accordance with the laws of the Kingdom of Sweden.

19.2 Any dispute or claim arising in relation to these Terms and Conditions shall be determined by Swedish courts, with the District Court of Stockholm (Sw. Stockholms tingsrätt) to be the court of first instance.

We hereby certify that the above
Terms and Conditions are binding upon the Company.
